

ENVIRONMENTAL POLICY

Our services, products, working practices and workplaces reflect our belief that what is good for the environment is good for IOH.

IOH conducts its business in ways that respect the environment and the communities we serve and ensure safe, healthy workplaces for our people. This approach is a key company value and is enshrined throughout our policies.

Our Environmental Policy:

IOH will demonstrate leadership in environmental management in an occupational health setting. We will exceed applicable requirements as well as promote pollution prevention and continual improvement through our quality management systems.

Under our policies, we expect each occupational health centre to develop, implement, monitor and continuously improve its environment performance.

IOH will encourage clients to adopt best practice policies and procedures with regard to managing occupational health environmental issues.

IOH will comply with environmental policies and procedures adopted by our clients when working within their premises.
